

δ Ryle

Pricing & commercial model

Financial infrastructure for the Digital Assets Economy.

Launch digital assets, move value, and manage private operations with infrastructure built for enterprises, fintechs, and AI.

Commercial model

01

Platform

A flat monthly fee for the bundle you choose. Sandbox and live, cloud, ops, and updates included, with no separate infra bill.

02

Support

Standard support included in the platform fee. Optional Priority retainer for a response SLA and reserved capacity.

03

Services

Optional capacity beyond the platform: a Forward Deployed Engineer onsite worldwide, or Custom Software Services for scoped builds.

01 Platform

Bundle 01

Launch

Issuance and operations on public rails.

- Blockchain Infrastructure
- Back Office
- Sandbox + live · APIs & webhooks
- Standard support included

USD 6.500/mo

Flat fee

Bundle 02 · Recommended

Distribute

Launch plus branded end-user UX: the path we recommend for Growie-class programs.

- Everything in Launch
- White Label Wallet
- Standard support included

USD 8.500/mo

Flat fee

Add-on · Optional

Private

Add confidentiality on public chains when privacy is a requirement.

- Add-on to Launch or Distribute
- Confidentiality Onchain
- Disclosure, audit, proof of reserves

+USD 2.500/mo

Flat fee · 5.000 transactions per month

02 Support

Standard support keeps the platform running. Priority reserves capacity with a response SLA.

Included

Standard

With every platform subscription: enough for day-to-day operations.

- Docs and onboarding path
- Shared support channel · business hours
- Platform bug fixes and product updates
- Sandbox help through live promotion

Included

In monthly platform fee

Optional retainer

Priority

Corrective and preventative L3 coverage with a response SLA.

- Response SLA: 8 business hours
- Up to 40 hours/mo technical dedication
- Named technical contact
- Minimum 3 months · aligns with contract term

USD 2.800

Per month · optional add-on

03 Services

Optional capacity beyond the platform. Pull a Forward Deployed Engineer, or Custom Software Services for scoped work.

Option 01

Forward Deployed Engineer

A Ryle engineer embedded with your team to ship integration, go-live, and evolutives.

- Can be sent onsite, anywhere in the world
- We deploy to your office, wherever you are
- Works in your stack, with your team
- Discovery, integration, go-live, evolutives

Option 02

Custom Software Services

Scoped builds when you need software beyond the standard platform surfaces.

- Custom integrations and product modules
- Branded UX and workflow extensions
- Data, ops, and migration tooling
- Defined scope, milestones, and delivery

On-demand

How you buy

Same commercial shape for either option: hours as used, or prepaid packs.

- USD 120/hr · billed as used
- 40h pack · 10% off base rate
- 100h pack · 15% off base rate
- Custom software also available as a scoped quote

USD 120

Per hour · or prepaid packs

Growie · Commercial term sheet

How we work together

A simple partnership path: start with what unblocks Growie now, then expand as the program needs it.

Phase 0 Discover

Inventory what Growie already has: modules built with Globant, systems in place, and what to reuse vs replace.

Phase 1 Launch

Stand up Ryle: backend, Console, and APIs. Define asset and token structure, then go live on the platform.

Phase 2 Distribute

Make assets exchangeable. Set policies for who can hold, buy, and transfer, then ship branded distribution UX.

Phase 3 Public offering

In development. Early-access pricing when ready, not in this proposal.

FLAT PLATFORM

USD 8.500/mo

Distribute · flat fee

Considerations for Growie:

- Data, customers, brand, access stay with Growie
- Exportable audit trail · disclosure on demand
- Documented exit & data portability path
- Continuity plan if the relationship ends
- Written reuse-vs-replace of Globant assets

Included

- ✓ Distribute: Blockchain Infrastructure, Back Office, White Label Wallet
- ✓ Standard support: docs, onboarding, shared channel (business hours)
- ✓ Platform bug fixes, product updates, sandbox help through live

Deal overview for Growie
